

# CERAWEAR

## Wear Resistant Mats

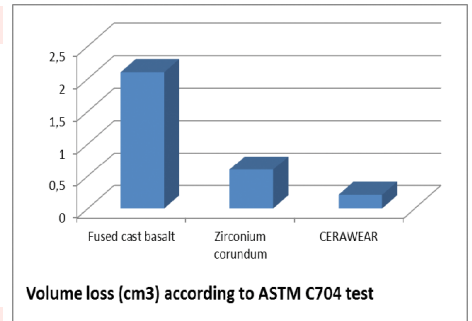

CERAWEAR is the high alumina ceramic with superior wear resistant properties, produced by BAKONY in Hungary.

CERAWEAR mats consist of small mosaic plates glued on acetat silk or on other special medium. Main sizes of square mosaics are 10x10 mm and 20x20 mm, hexagonal mosaic standard is SW20 mm. Standard mat size is 500x500 mm. Available from 1.5 mm thickness (10x10 mm)!

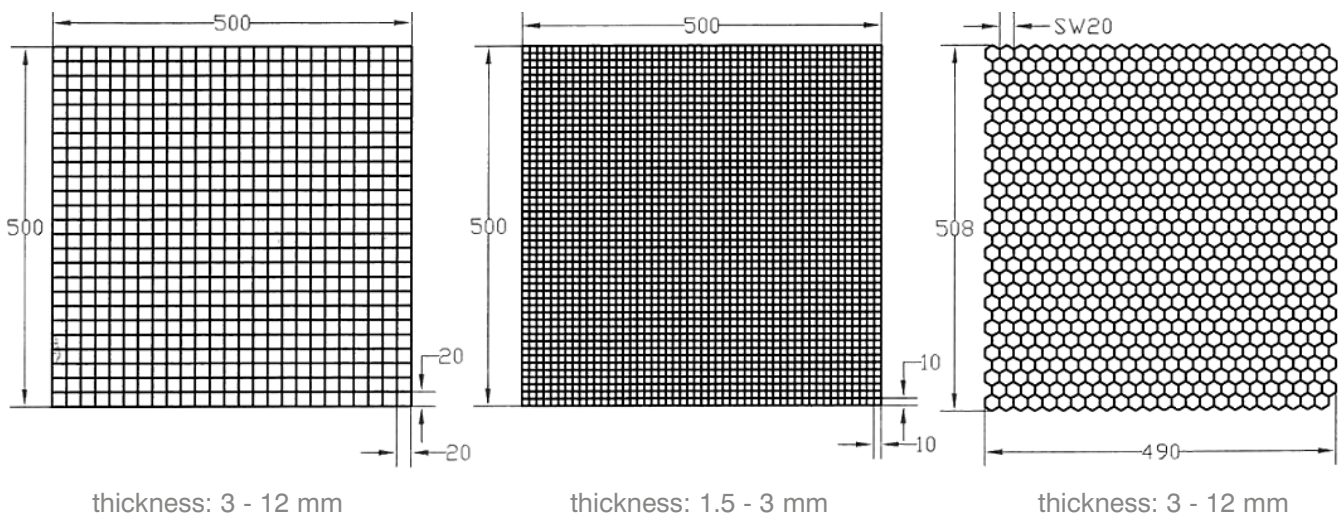

### Main properties:

Alumina content:	≥92%
Hardness:	9 (Mohs scale)
Density:	min. 3.6 g/cm <sup>3</sup>
Wear (ASTM C 704, 45°)	<0,3 cm <sup>3</sup>

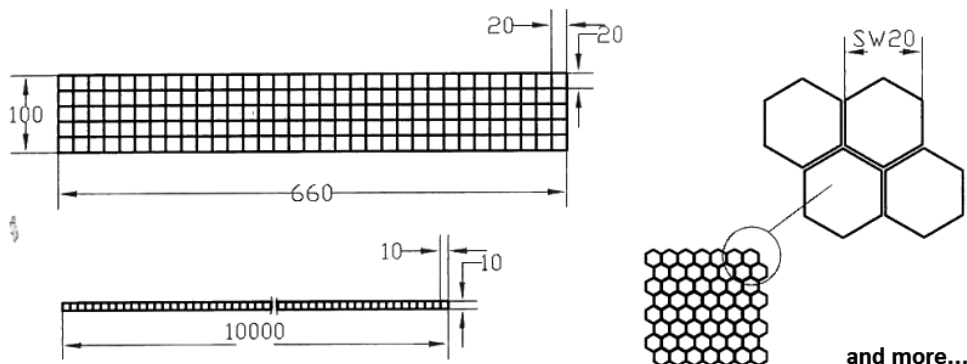

### Standard mats:

### Special mats:

CERAWEAR mats with special sizes and design are also available upon request.

Please check availability by using internet-sales at our web-site or inquire directly at our sales department.
